THE

PREFAC

WHEREIN

The Authors of these ANNOTATIONS ensuing, present some Important Considerations of the happy Progress of the Gospel

in this Kingdome; together with an account of their undertaking and performance of this Service for the clearing of the Sacred Text, to the understanding of the Christian R E A D E R.

E cannot but observe and take it to be our duties to acknowledge, if we make any good use of auto-fin (as men)or of our Keligion (as minds, and the salvation of our souls, and for the most free and frequent use of such means (besides many comfortable Accommojespani ajev ji menan (opines mon) compane accommon dationi for om bodniy welfare; no people of the world bath had more canse, to set up all memorials of gratitude for the goodness of God unto them, than we of this Island, who have (for a long time) been at the Inhabitants of the Mountain of the Lord of Hosti, where he hathmade unto his people, a feast offar things, a teaft of wine * on the Lees , of fat things full of marrow, of * Or drawn wine " on the Lees well refined : as the Prophet Ilaiah 25 from the Lees, verse 6, elegantly setteth forth the fulness and delicacy of his Spiritual provision.

For fince the reformation of Religion, almost miraculously wrought, (though we profess to believe Gods Word, without the pawn of a miracle to make it good) for is prevailed againft might Engles wellers (all the power and policy of the Popilo party) by week; inftraments, a (child and a woman) and being begun by him, and (after a red Parenthelis of perfection) by her brough to toward perfection; towards: wo may Jay, sut to it, for God referved further advances and nearer approaches to that fair marks; for aftertimes we have fince then, (we say) enjoyed, a superabundant measure of Sacred and secular blessing sabove other Nations, and have bad our greatest share of the best of both.

For what (furthe one sort) more excellent than the Gospel of Peace, the power and purity of the means

of Grace? And what better for the other, than such and so long tranquility of Church and State, and plenty withall, (as untill of late) have been continued to us: which if we have not duely valued in their fruition, (while we had them) God may most justly (as he hath begun 10do) make us to know their price by their loss; and so upon our forfesture of so great favours, the saying of the Wise man may be wosully verified

wour part, He that encrealeth knowledge, encreafeth forrow, Ecclef. 1. 18.

That such inselicity may not besall, or fallen upon us, may neither encrease nor continue, until it quite overwhelm us, it will much concern us, by a ferious and considerate review of the times past, to note by what steps, and degrees, the good providence of God hath called and conducted us, out of darkness into his marvellous light, I Pet, 2.19. which our eyes have feen, and to the happy frate (for spiritual proficiency) which we have had, above that which any of our forefathers have known in former times. For though Godbeing Ommipotent, could do all things as perfectly at once, as in the duration and succession of many Ages: yet he is pleased, for the most part, by gradual accesses promote his own operations, to the period of their perfett accompt Coment.

Wee feethis in the work of the wifible World, which he could have furnified and finished, so soon as he bebegan it, the first minute of the first day, aswell as the last of the fixth: but he first made a gross darke and confused mass of general matter, out of which, day by day, he drew the several parts of the ensuing dayes works. He could have made both Lighs and Firmament, and Sun and Moon, and Stars, and all the rest in one in frant; but that we might not with too quicke and transient Cogitations pass over his works, he tooke one day for the Light without the Sun, and another for the Firmament, and another for the garnishing of it. with those glorious Lamps, which shine into the World by day or by night 3 and man the best of his Creatures (discernable by sense) he reserved for the last day, and for the last work of that day, and then (when man was (aljeernatie op jenje) perejervea jor we wij wog sjumsjor wordt op jenje) perejervea jor we wij wood, Gen. 1. 31, and there fetting made) what be had called but good before, he called (in conclusion) vecy good, Gen. 1. 31, and there fetting are his rest. he made no more.

It may probably be deemed, that there were then source so many well qualified Passours Abroughout this whole land, as might at some times of late have been numbred in this City of London. In English those that have been best known, and most used amongst us, have been the Geneva Annotations, made by our zealous and laborious Countrey-men, who in Queen Maries dayes betook themselves to that City (as to a City of Resuge from the reach of that persecution, which raged as hor as fire, while sperigned over this Realim, and the Pope over her.) In the time of their exila there (as they prosesse) in their Prefatory Epiffle to their brethren of England) they were for the space of two years and more, day and night, with fear and trembling, occupied in the Labout of their English translation with norse upon it: which when they had finifeed in the year 1560, they presented it, with an especial Dedication (bearing Date the same year) to the incomparable Princeffe Queen Elizabeth; which was received with such acceptation of Her Majesty, and general likeing of Her people; that from that time, untill the edition of the last translation of the Bible, it was Printed by Her, and Her rightful and Royal Succeffours Printers, above thirty times over.

part, whereof we shall give the World a true and just account in that which followerh.

First, as we had no shoughts of such a service, untill by Authority we were so called unto it, so since we have accepted of it, we have thought of nothing so much, at how we might dicharge it, with best advantage to be glovy of Gad, and the instruction of his people, and therefore we have put our selection much more pains (for many moments) in consulting with many more Authors; in several Languages, than at first wethought of that (for the propriety of the Original Text, for pertinent and profitable wariety of versions, for confinancy of parallel Scriptures, and for perspicuity in clearing of the darkest places) me might bring in fach Observations, as might not only serve to edific the ordinary Reader, but might likemile granifie our Breiven of the Ainifery, at least such among them, as have not the means to purchafe, or legime to peruje, fo many books, as (by order of the Committee) we were furnished with all, for the finifing of the Work, committed to our hands

Among which (as we were directed, by those who gave us our charge) we have made use of the Italian Annotations of Deodar, and of the Dutch Bibles, the one lately again fet forth at Geneva, the other in Holland, by Order of the Statest yet fo, that if we have borroved ought of either, as they have done of those, who did precede them, in the like observations, we Ball defire but to take it to usury, and to make our return of what we receive, farre above the rate of ordinary interest: And in this boly businesse we have none other ambition than to give better fattification to an apprehensive Reader, for the sense of the whole Bible, than (in this sens) we have me without in any one Work of what Authors; soever,

And therefore though we hold the Geneva Annotations, to be in the main points of Religion, Sound and Orthodox in Dollrine; and guilty of no errour, which may not be incident to Learned, Goldly, and well-meaning men, (and taking them for fach at, for those times wherein they were made, were very worthy of praise for their profitable use, for then they were the best that were extant in English) we conceive for our selves, that we shall bester discharge the trust that is reposed in us, and do more answerably to the intention of those who set us on work, and bester satisfies the expediation of such others, as see observant eyes upon our assiduous and sociable pur suance of the service imposed on us, if (being as repayrers of buildings to rip into anold house) we rather took it quite down, and built a new one, than patched it up, with here and there anew piece of our own putting in, which would not be decently suitable to the other parts, nor any way men furrable, either in measure or manner of Strutture, to such a Model (as considering the advantage of the present age, for helps and means to exceed the precedent) some apprehensive men have already presigned in

Whereof shough we fail (as what ability or industry can reach to the extent of an active fancy?) not onely infalling short of their conceits, or of our own desires of what we would and should do, but of acceptance what we could, and have done, we shall have recourse (for our comfort) to the success of our stance what we will have for our comfort) to the success of our stances with warrant from both, may be allowed to pre-bearts (whereso we may attel the Droine Omniscience, and with warrant from both, may be allowed to pre-bearts (where to we may attel the Droine Omniscience, and with warrant from both, may be allowed to prefele (with the bleffed Apoftle Paul) that we are not of those that cornipt the Word of God, 2 Cor. 2, 17, or who handle it descrifully, Chap. 4.2, or who wrest any part of it, to the patronage of any errour of what denomination source. Nor have we added to it any of our own preconceived opinions, to imprint a partiality on our Expositions; nor taken from it, or smothered the least title of Sacred truth contained in it Nor yet have we either slightly, or subsilly passed over any difficult place with silence, as if it had no need of

an Annotation to clear it. But believing that to belong to all Scripture of Divine inspiration, 2 Tim, 3, which is spoken of under the

title of Prophecie, viz. that none of it is of private interpretation, 2 Pet, 1, 20, we have not (netwithstanding our most intentive enquiries after the true and genuine meaning of it) rested in any single conceit or construction of our own, nor in any at all, as meerly buman; but (according to that of the Apostles The Spirits of the Prophets are subject to the Prophets, 1 Cor. 14, 32.) have submitted our private Dittates to the censure and correction of our Colleagues in this service dayly assembled together, for the per-

usal of every ones part. And what doubts we met withal, which we thought (for the present) too hard to be easily resolved, we put into a particular Catalogue, and adjourned their refolution to a day of more deliberate Discussion, when our readings were done, which could not without inconvenience be interrupted by anylong debate of difficulties coming in our way. And because we well knew it was Gods proper worke, to reveal the secrets of his own Word not onely in our fingle and severall Stralies, and Meditations upon it, but in our joynt examinations of each particular portion (besides our severed Devotion) we joyntly when we came together, implored the presence and affiftance of Gods Hoty Spirit, so to guide our minds and tongues, and hands in the prosecution of this Sacred imployment, that Gods Word being our rule, we might not swerve from it by any creoked lines of erroneous digression; much more, that we might beware of making any foul blots of Heretical pravity, upon fo fair and glerious a ground-work, cf piling up upon that golden foundation, cither wood, or hay, or stubble, fitter for burning, than for fuch a building.

Whereof a we are not conscious to our selves in the least point, so are we consident in the Candor of all

Thus much then may suffice to have been spoken concerning the first undertaking of this Task, and has, nec aliothe manner of our joynt proceeding therein: Somewhat remaineth to be added concerning the present third rum vitupera-

Edition, which in divers parts of it at least may well go for a new work.

That is most true, (as by daily expersence and due observation in all works of humane industry concern- malis. Idem, ing matters either civil or facred appears) which was at the very entry into this narrative before intima-Tom 1. Epist. red, that nothing of moment is both begun and confummated at once. Nor is it less true, that after ad Celanti. very bulk of the Book now swelne up unto two large Volumes, will sufficiently evince.

The principal reason of such diversity for matter of dimension between the present Edition and the for- Dei & anguli mer, is this: Thefe Annotations were at first intended, as the sledger sent the Central Version, for Mare suffurnment, as the statements Geneval Version, for Mare suffurnment, ginal Notes onely assistant the text. To which purpose, in the directions then delivered unto us, it was taken, Epist as required, that they should be much of the same size with them. To this scanning being stinted, (nor in-virgines there) deed might they fitly, jo confined, much exceed such a pattern, left the border should be larger than the skirt monenf. Tom. of the coat, and the verge of the page than the body of the main Book, our endeavour was to be as brief b Ego omnia and concile, as we well might, and we were therefore constrained, being so streitned, to let passe many qued bona fiand consist, as we wantly the construction and large discussion, that our Note having onely a nar- de coram Doc things not unworthy other wife of due observation and large discussion, that our Note having onely a nar- de coram Doc row by-place also guestion on the out-side of the leaf, might not in undue and underent manner; of willo concent-enderse their quarter, at opened beyond sight proportion upon the spaces that were to be referved for the context. Hence came it to passe, when the work came abroad, that divers notes seemed not so full, or a sliquo, no. clear, to meaner capacities especially, while " endeavour of brevity bred ; asis usual, some obscurity; judicio dilliand much was miffed by many, being indeed purposely omitted, which well might, and would have been the gention's tragreatest part of it inserted had the lists and limits prescribed us, afforded room with any situalle to receive it. sui, aug. lib. 2.

But, what could not then in this kind be effected, the Work being already entred upon at the Presse, and begun there with the parts of some that hadkept within the forementioned compasse, that, it is hoped any diligent and intelligent Reader, will soon perceive to be now, in the present Edition, by a very considerable and advantagious addition, peformed : when he shall therein find , the termes and formes in the Ociand advantagious neuropsylvente in the control of the many of them, at could not in * Signification for words eafth, or without some injury, be comprised and express; the variety of vertions and interpre- of aliquid unitations, in most Writers of note, as well Je wish as Christian, represented, and, where just occasion, put in verbiprotation, in most principal in the construction of the construction of the Learned, the grounds discovered of babe quoi defining, cultadout from the rest and construction the grounds discovered of babe quoid effective the further disquisition and decision of the Learned, the grounds discovered of frame, that had formerly pass for currant, from hand to hand without triall: places of distinguary militakes, that had formerly pass for currant, from hand to hand without triall: places of distinguary militakes. An advertisement upon a certain clause in an Epistle prefixed before the Annotations of Mr. Diodati on the B.ble : which clause is this,

The most reall confirmation of the usefulness of the Annotations of Mr. John Diodati, upon the Holy Bible, is the High esteem those Reverend Divines have had thereof, viz. Dr. Gouge, Mr. Gataker, Mr. Downame, Mr. Ley, Mr. Reading, Mr. Taylor, Mr. Pemerton, and Dr. Fearly, who each of them taking a feveral part of the Bible to make Annotations thereon, and Printed them together, 1645, they all so highly approved of Diodati's Annotations, that any one, who shall please to compare those several Notes of theirs, with the first Impression of this in English, Shall find many thousands of this our Author inserted : but especially in Ezekiel, Daniel, and all the minor Prophets, &C.

T hath been an ancient practife, (a practife that favoureth rank of pride, and envy,) to raife up praife

and glory to some, by false aspersions, and unjust imputations on others. To omit all other instances, A certain Epifler, who subscribes himself R. G. hath taken upon him to commend a worke far aboue his commendation, the Pions Annotations of a Indicious Divine, Mr.

John Diodati upon all the Sacred Scripture.

This he facks to do by a fall and flandrous calumny on fundry Divines, ght of whom he namethye layes to the charge of every one of them, that they have inferted many thousands of Diodati's Annotations into their own, Ear Seven of the Eght, whom he names, let his own rule be observed a namely, their Notes compared with Diodait's, and the many thou fands will ust be found one. It may be that in some places they may agree with Tremellius, and Junius, with Pileator, and other Learned and Orthodox Annotators on the Old and New Teffannen, whom Diodati bath much traced, and threspon all agree in the same Trath: but from thence to infer, that the Seven English Annotators have inferred Diodati's Notes that the Seven English Annotators have inferred Diodati's Notes into theirs, is so false an inference, as any Sophister would say, non sequiture

The Amotations of the forefaid D. vines were finified, and given up to the Stationers the year before the first Edition of Diod six Annotations, translated into English, were publised: so as they could have no

At for the Italian, in which Language, Diodati's Annotations were first composed, many of the fore-faid Devines understood not that longue : nor had any translation thereof for their help. But farther, to demonstrate that it was not Diodaits staff that they leaned upon, in many Chapters which Diodati bath either wholly passed over without any Note at all, or onely here, and there made a bie, which Diodati bath either wholly passed without any local and sort Note, our Devines have made many learned and useful Annotations: And also have fully cleared fundry difficulties, which Diodati bath paffed over in filence, or professed, that, * This difficulty is not to be refolved: and it is likely that there is some alteration hapned in these accompts. Dub not this Supposal of alteration in the Sacred Accompts impeach the authentique authority of the Hebrew

But granting that in the first Edition of these Annotations, there was somewhat of that kind, that might justly be excepted against, get seeing that it dots not at all concern either the former, second , or this, thind Edition, which have been to carefully renewed and enlarged, as by the very bulk may appear : We had not need further, to infift upon it, not doubting but the judicious Reader will rest very well satesfied with this account that hath been given him of the bufinel; but more when he feall enter upon the Work it felf; reade, and compare, and consider. Where we leave him, withing that all may redound to the Glory of Almighty

HE five Books of Moses are sometimes contained under one Title, and so from the most observable matter delivered in them, and differfed through them they are called Thorah, that is, the Law: and from their number, and juntiure, the Title given them by the Greeks, othe Pentateuch, or fivefold Volume, for all five anciently made but one Book, as did the twelve smaller Prophets; and thence it is that the Books of Exodus, Leviticus, and Numbers, begin with words of Coberence

which carry on the indicatent matter suby way of orderly contexture; and connexion with what was faid before.

Of these, the first Book in particular is called by the Hebrewei, Berchluth, from the initial words of it; after which manner thay gave names so dever other Books: the Greeks call it Genesis because it delivereth the Story of the worlds Origiand, the Creation of Adam and Eve their laple and Off foring in their degenerated condition, the multiplying of fin in their multiplyed possers, where upon followed the universal shoot that overwhelmed all siving creatures of the Air & Earth, except avery few of each fort, which were refresed as a flock for a new plantation in the next age; with other memorable matters of the Patriarks, specially of Noah, Abraham, Ilaac, Jacob, and Joseph, with whose death Genesis endeth; which was in the gear of the world, 2368, or 2369, as they bring in the accompt, who have made it upon diligent perufal, and comparing of

Ver.4. God saw] This is often after mentioned, as version, 18,21, 25:31. and is alwayes to be understood, as a condescending in phrase and expression to the manner of men, who when they have effected or power in Godto make the world distinctly and perfectly complete at the first, for he could have done that in a moment: but he was pleason or obtained, or observed any good thing, upon fight or experience, fels or do his work by degrees, and gradually to pocceed for intelle perfect of approve the profit of it; which God knew well enough without on more perfect works; and to be doing that in feve all dayes which fight; for that is properly a lensitate and corporal faculty which it not in the could have finished in a minute; to give the rational creature occa. Rhodig, lib. 2. Antiq. Lettion, chap. 9. but in the latter part of the verfe, the word Day, is taken for the day natural, confifting of twenty four houres, which is measured most usually from

the first in order; the like expression we find Gen. 8.5. Numb. 29. 1. there are some hills (as some say) higher then some rainy clouds, unand it is followed in the Greek, Matth. 28.1. Joh. 20.1. 1 Cor. 16.2. This first day consisting of twenty four hours had (as some think) for the first half of it the precedent darknesse, and for the other the light newly created : the night they take to be meant by evening a part of it, newly cuescus: the ingrands associated in the state of th containing twenty four houres) is measured from even to even, Levit. | upon it: fome derive it from Rasson, fignifying good plessive; and fo \$2,320. the Romans, and other Western Nations, trekon the twenty it importests, that not by any natural needlity or operation was this 23.33. Yet it may be with good probability, thought that at the first (according to the Chaldean account, which is quite contrary to that of the Jewes fore-cited, measuring the day from Sun-riling to Sun-riling) the day natural began with the light: tor Even is the declining light of the fore-going day; and the Morning may as well be called the end of the night paft, as the beginning of the day following and fo divers of the Learned by the Evening understand the day, as the end thereof, and by Morning the night, at which time it is at an end : for denominations are many times taken from the end, because thereby the thing is made complete; fo the whole week is called by the name, Sabbath, Levit. 23.15. and Luke 18.12. because with it the week is wholy made up and fully finithed.

V.6. Firmament] The word in Hebrew is Rakiah, of the masculine Gender without a plural number, and it fignifieth a thing spread out, or extended like a Curtain, liai.40.22; Psai, 104.2. Or, like melted metals, which (though with heat they become as like water in formelle, notifientle and fluid motion, (whereby they fipe ad abroad, (if they be not bounded by some other thing) as they are unlike mater in its coldnesse, do settle in a firm solidity, when the heat is spent: Or like metals that are beaten out into bredth and length by the hammer; in that fenfe the word Firmament, may be attributed to the Orbs of the Stars and Planets, which may therefore be called the firmament. If not for fuch a tolid firmnels, as is in metals, yet in regard of their durable natures, not subject to corruption, as inferiour bodies are, until the final diffolution of the world, 2 Pet, 2.12. But the word, Rakiah, fignificth properly and immediately an expansion, or spreading out ; and the word Firmament, is aniwerable to the Greek word Stereoma, which Importeth firmneffe, rother then to the Hebrew word Rakiah which figuifieth expantion, extension of spreading out i and therefore though the earth in regard of its sirmnelle and Rability, might be called , Firmament , the word Rakiah is applyed unto it , not in respect of its firmenesse or stabilitie, but in respect of its extention or spreading our, Ifai.42.5 and 44.24. for which cause it may be also applyed to the Region of the Aire, as in this place; though elsewhere such an acceptation or application of it, be not very obvious in, the Scrimures.

V.7. Which were \ In the Hebrew there is neither were, nor are but thus. Pfal. 18.11.

V.8. Heaven] That is, the Region of the Aire, and all that is ahove us, which is called by the name of Heaven; as first, the fowler of heaven, ver. 30 of this chap, and Pfal. 79.2. Secondly, the clouds of hea-Dezuer, ver. 3.0 or mis caps, and r. 11.79.2. Secondly, the troma y over-one. Piol. 14.7.8. See An.on c.7.v.20.
V.10. Earth Though the earth be firme and stable in it self, yet it importeth, that not by any natural necessity or operation was this separation made, but by Gods free will and good pleasure to make both elements more beneficial and pleafant to the creatures of feveral

Seas The word here first brought in in the plural number (as it is elsewhere) is used many times also in the singular, as Gen, 12.7. Hot. 11.10. Mic. 12. Pfal. 8.10. (where also it is used in the plural number) and though in every place where there is water, if it be but a bason-ful, there be a collection of waters, which is inade up of many obtained, there or a concentral waters, which is made up in many drops, as one loaf of many graines; yet it is applyed only, or for the most part, to a copious collection of waters. And it may well be used in the plural number, because of the plurality of significations, natural, artificial, and figurative : Natural, as for the feveral forts of feas, the great fea, John 23.4. or Medherranean fea, called also the occidental or Weltern fea ; because in respect of Jerusalem, that sea is westward; the Red Sea, called Mare Suph or the fedgie fea through which ward; the Red 3.6., caled orders ship, or the ledge ted through which the lifteelites palfed, and in which the Egyptians were after drowned. Exod, 14, 22, 26,27, the Salt Sea, Numb,24,3,12, called by Joi-phus, the Lake Affbalth, or Affbalthet, whereof he makes a memora-ble and admirable defeription, in his flory of the Wars of the Jewes, l.s.c. 5. the Sea Chinnereth, Numb. 34.11. called usually, the Lake of Gennesereth, Luke 5.1. and the Sea of Galilee, and of Tiberius, John 6.1. which (as Pliny mensureith it) is fixteen miles long, and fix miles broad, Nat.Hift.lib. 5, tap. 15. And there is a plurality of seas yet further varied according to the Countries on which they border, as the A-rabian, Persian, Spanish, Briefsh Sea, & c.

Again, the word is applyed to an artificial collection of waters; for that ereat braich wellel, I Kin. 7.26. was called a Sea. 2 Chron. 4 6.for the hugeness thereof Fofeph Amig. 1.8 c 2. Itw as made (faith he) after the manner of an Hemisphere, or half Globe; and it was ten cubits broad from the one brim to the other ; Kin, 7. 23. and an harid-bredth thick, and five cubits high, 2 Chron. 4.2. wherein the Priests were to

wash themselves, 2 Chron. 4 6.
Lattly, By a figure, a multitude of men meeting together as drops in the sea, is called a Sea, Jer. 51.42. and by maters according to the interpretation of the Spirit, are fometimes understood, multitudes Nations and Tongues, Revel. 17.15. But that acceptation which is proper to this place, is neither figurative nor artificial, but natural i natural in respect of the condition of the creature since the Creation but miroculous and divine, in respect of the first separation of the waters from the earth

and the collection of them into leas.

God [sw] The reparation of waters was but begun the recond day, but perfected on this third day: wherefore the approbation is not men-tioned in the conclusion of the second dayes work; but referred led firmamens, was made that they might be divided; and by it was the till now, that it was perfectly made. died There is no doubt of the death of those that were drowned, but a great question whether all that were drowned were also damned: Some are for the Affirmative, 1. Because they were generally corrupt and cruel, Gen. 6.11. 2. Because the preaching of Noah, and preand crute, vermont; 2. Decaute the preacting of Position and price paring the Ark for one hundred and twenty years together, wrought no repensance in them. 3. But for the name Peleg in particular, and for the reason of that name forementioned, how filly may it be a pattern for our unhappy times! How great cashe have we to call the children that are born in the little that are born in these distant dayes by the name of Peleg? for how are we divided, not in tongues alone, as at Babel, but in heads, and hearts, and hands? What divisions are there not only of Reuben, Judg. 5.15. but of all the Tribes of our I fract ! and were we but divided, sur cafe were leffe lamentable, but we are sub-diviled into many factions, in the state, and snipt out into many schismes in the Church: and what hateful and horrid hostilities are reciprocated betwint those who are brethren by nature, Nation and profession of Religion! Jochtan The division of the earth into different Languages, and people, is noted by the name of Peleg; but here some observe another division of the family of Heber; for Jocktan (lay they) divided hunfelf from the true Religion of his fathers house: which cannot be proved by Scripture; for he is mentioned but in this Chapter, and in 1 Chron. 1. and in neither of these places is any such thing recorded of him. V.10. Caft out] (Gal. 4.30) Of this the Apostle, Gal. 4.24. maketh an Allegory; which (fo far as concerneth conformity to this Text) a late godly Preacher now with God, in his Book Of Prototypes, hath briefly noted thus. Here be two mothers, a bond-woman and a freewoman; two Covenants, the Covenant of Works and of Grace; two nature y two kinds of children condemned and recement and two consent perfecting the free at this perfection Sarab (though otherwise a good woman) breaketh out into passion: Cust out, core, yet there might be reason why the defired their removal out of the family, both could not, as before, endure her parenerthip in her husbands bed; and Abrahams dear affection to Illimael, expedied Gen. 17. 18. might make both the mother and the son less respective both of 5-rab and Iface; and by Ismaclas Isase was mocked now, so he might be cor-supred in his manners, because he was wicked; besides, the honour of his holy Pedegree would not be preferred to pure without mixture and confusion, as if they had their dwellings at a distance : and therefore some conceive that Sarahs rejection of the fon of the bond-woman was not only paffionate, but Prophetical, as forefeeing and ferefpeaking the fe-paration of the holy Seed from the profane, whereof Abraham, through his fond affection to Islimael, was not at that time lo apprehensive as Sarah was ; nor did either of them perhaps fo understand or lay to heart as they should have done their corrupt choice of an evil course for accomplishment of the divine Promise, as if God would not keep his word unleffe they betook themselves to such a finful supply by Hagarthe Egyptian, a daughter or descendent of the race of Cham, who derided his own father; and this might justly occasion the disturbance of their houshold peace, as before in the pride and contempt of a servant towards her mistreis, so here of a brother towards his brother.

It more like to be abhorred: As an husband, how could be ever expect any peace, or comfort in his wife, if he should shed his bloud, against whom she could not endure either a scoff or a flout? As a Believer, or professor of Religion, he might be disposed to disobey, because Istac was the son of the promise, Gen. 21.12, and to kil fuch a fon, would make Infidels blafpheme his God and Religion for such a fact. There was yet more tryal in this Command, for if it might have been done fuddenly, or feererly, or by fome more case kind of death, it would have stirred up the less reluctancy; but it must be advisedly done, upon three dayes deliberation, openly upon an high hill, cruelly by cutting his throat; ripping up his bowels, and burming his quarters in the fire upon the Altar; and what if I fate being a lutty young man,upon his offer thould refift, and by his example be tempted to return upon him with the like bloody violence ? beguited me] The cause why faceh was deceived, was, for that in old time the wife was covered with a vail when she was brought to her husband, in figne or token of chaffity and fhamefastness. See Chap.24. 65. And whereas it is faid, that Judah thought Thamar to be an harlot, because the had covered her fice, Chap. 38.15. the meaning is, that because her face was covered he knew her no & because he knew her not he took her for an harlot; or if harlots did wear vails, they were of another fathion, or worn at other times, and in another manner then Brides were wont to do; and though Leah might have been known to Faceb by her speech in the dark as Jacobs voice was known to Isac when he was blind, yether vail might be a cover for her filence, for in that the modesty of women appeareth, as well as by hiding of their faces 3 or her speech, being only a low whitpering it could not callly be differenced. In this deceit, it is like that Leah acted her part after her fathers, as Jacob his after his mofor he shewed himself a very unjust man, and an unkind Uncle; whereby yet Jacob might be remembred of his deceitful dealing with his brother yet jatoo finging in the first of the first occasion, be disposed to repentance for what was past, and to patience under that condition, which either his necessity, or his Uncles dishonesty put her telling) but sue to him for removal of her affliction, by the

V. 27. Fulfit her week | The word Shebang in Hebrew, is sometimes raken for feven years, (to the Geneva Translation hath it) fometimes for feven dayes or a week fo here; the meaning is, that, for as much as the manner was to celebrate a weeding with feven dayes feathing, as Judg. 14 1 2. Facob should accept of Leah for his wife, & celebrate the nuprials after the wonted maner, and that done, he would prefently give him Rachel, for whom he flould ferve the next feven years after, which he did; and that he stayed not for Rachel until a week of yeers, is evident by order of the ftory, for Jacob stayed in McCopotamia with Laban twenty yeers, chap. 31.38,41. At the fourteenth year of his fervitude was Joseph born, be-31.38.41. At the contreenin year or his revisitude was joren boins, oc-fore which time Rachel had been foine good while a barren wife, and therefore as out of hope of issue by her felf, the gave her maid Bilbah to her husband, who by him had two sons before her self had any, as Gen. 30 flaweth, whence it must necessarily be concluded, that Jacob was married to Rachel after a week of dayes, according to the pluate and cultom already observed not after the end of the second seven yeers service.

V.28. Fulfilled ber week] That is, he took Leah for his wife, and fulfilled her week of folernn feafting for the wedding, as hath been

Rachel his daughter to wife also.] Two wives at once, if they had not been fifters, had been one too many for one man, as is implyed in the first institution of marriage; yet besides them he had both their hand maids to be his wives, Gen 30. ver. 4.9. The law against plurality of wives was not yet expresly declared, nor against the marriage of two fifters 35 afterwards it was, Lev 18 18. it is doubted therefore, whether at this time either the one or the other were a fin in the holy Parriarch; it Ignorance metry that they having in hrevelations from Ged, thould be levelled as Leah was, but musband did Leah for her, though God were not garoane whether it were a fin or no, or that being fo godly, they flould natural corruption brake out of one fin into another, the beginnent with finton of the Divine providence in it, it was distinction. Vers. 1. [Nvica] The word in the Original, is sometimes taken for a lawful emulation in a good cause; fometimes for an unlawful indignation at good; so is the word Zeal diverfly used in the New Testament; In this place it appeareth to be fet down in a finful fense, as Rachels fault to be much offended at her fifters fruitfulnesse, her felf being barren ; she should have rejoyced in zeal to Gods glory in propagation of the promifed Seed, in the good of mankind by the multiplication of people, in the increase of Gods Church, the thould have been glad of the bleffing of her own flesh and blood, especially in the neerest degree, as Leah was to her, and in the contentment of her husband, (who had no doubt a great defire to be a father, as well as fbe to be a mother) in that her detect of fruitfulneile was supplyed by her fifter; but self-love makes her fin against them all. V. 30. And Jacob faid] By this reproof of Simeon and Levi,
Jacob witneffeth his great dillike of their wickedneffe; But he feemeth to take the matter upon himfelfe, when he afligneth that which was gotten from the Shechemites, to the power of his fword and bow for obtainment, and bequeatherh it for enjoyment unto Joseph, Gen. 49. 21. which words of Jacob are taken by tome Interpreters, as a Prophelic ful-filled in the expulsion of the Canaanites by his politrity, whole bow, he calls his bow, because they were then in his loynes, and speaks of the conqueit as aiready made, because of the undoubted assurance of it upon Gods promile ; but most take the words in an historical fense, and fo fome refer them to this exploit of his ions Simeon and Levi against the Shechemites, wherein he approves of the fact, but so farre onely as it was the execution of Gods Justice for the injury to his daughter, and as God confirmed that title of what was taken from them, by had not beene upon 11, though but mean metal in Itali, to insacri to beene upon 12, though but mean metal in Itali, to insacri to pass for current Coyn among men. But the bought this with his money, or lambs, Chap. 31.19. How then did he take it with the fipered and the bow? Anfw.It is not unutual in Metaphoricall phrase, to call that by the name of a (word, and a bow, which, in effect and ule, is answerable name, of a tword, and a bow, which, in effect and ule, is indiversible to them. Now money is (as Solomon faith) aniwersible on all things, Ecclel, 10-19, it is a defence, Ecclel, 7,12 and can doe as much as the foward and the bow, thence was the daying of apollike Warrier, that no City was fo throngly walled, but an Afs, laden with gold, might make a breach into it; I omay gold be called the Artillery, and getter Ordannee, and filver may be called an book to take fifth, and he that the contraction of t buyes it, may be faid, (according to the Proverb). To catch it with a filver hook, in like manner the ground which Jacob bought with his filver, may be faid to be taken with the fword and bow; and he may use this phrase in this fense, with particular opposition to the bloody sword, and bow of his sons Simon and Levi. Or that which Jacob thus purchased, might be violently invaded by the Amorite, when he departed thence towards Hebron, and might, by force of Armes of Jacob his ions and fervants, be recovered again, as some conceive, not without probability; for though nothing of faith or life, necessary to falvation, be left out of the Scriptures, yet many particular actions and occurrences are omitted in the Hiftory of both Testaments; and in this particular flory of the slaughter and spoil of the Shethemites, though it be not feed down what became of the captive women and children, which were brought away by Simeon and Levi, verf. 29. it is not unlike, that many of them were by Jacob fent back to the City, (for he had not room for them at home) with a proportion of the spoil for their needs are main-tenance, keeping what he thought sit, to serve for a recompence of the wrong to his deflowed daughter.

CHAP. XXXVIII.

Veri. 1. A "that time] Part of the ftory in this Chapter fell our after the felling of Joseph into Egypt, but that part concerning Judahs marriage was before; Some take the words [at that rime] in respect of his taking of a wife, for the time betwirt Josephs felling into Bgypt, and Jacobs fending for to fojourn there; (which was twenty three years (or as fome reckon twenty two) as may be gathered by comparing of Chap. 37.2. & 41.46) and at the beginning of that account they conceive that Judah married the daughter of Shuah the Canaanite, for otherwife the flory of Joseph may feem abruptly to be left off, and that of Judah to be unfeatonably brought in : fecondly, they fay, that the that time when Joseph was fold into Egypt, Judah dwelt in the presence of his brethren, and therefore it is likely, that after this he made his choice of a Canaanitith confort : but neither of these reasons ate convincing, for Judahs ftory might be brought in in this place, because of the dignity of his Tribe, by the descent of Christ from him and Thamar according to that which is herereported of them, and because the most of these matters concerning him and his sons, had their course in the time prefixed; and for that which is faid of Judahs dwelling in the pre-fence of his brethren, it will not inter such a strict residence at home, but that he might make a visit to a friend elfe-where, and there mighe fee, and like, and freal an unmeet match with a Canaanite. There-fore this, not with it and ing the flory of Judah, may have its entrance before the felling of Joseph, and yet might be brought in here, because the greater part of it followed after ; and to at that time, must be understood down, Chap. 77.ver. 1. and accounting the time by the ftory of Joseph being seventeen years old when he was sold, and Judah being then about twenty one years of age, feven years before that, that is at fourteen years old he married; and in the three years, next enfuing, had three tons tuccessively one atter another; viz. Er, Onan, and Shelab; when Er, his eldeft ion, was about fourteen years of age, be married him to Thamar ; and Er, for his wickednesse, being smitten dead by God, he gives Thamas to his second son Onan, to raise up feed unto his eldeft brother, who doing as wickedly, God doth as justly by him, and to he cutteth off him also; Thamar then expecting the third ion for the fame real in that the halthe fecond, and disappointed of her defire, in the diffuite of an Harlot, is used like an Harlot by her father in law Fullah, (who was now about thirty years of age) by him the was midther of twins, Pharez and Zarah; Pharez being married at fourteen years old (as Er his elder brother, and father were) begat Hegron the iame year, and the year after he begat Hamul, and that year went Jacob into Egypt, and cravied those two little ones with him in the fourtieth year of Fosephr age; so that for the most of the story of this Chapter, we may take the words, at that time, or, in that time, for the time after the felling of 30/6, b into E ypt, onely indube marriage (as the ground of the enturing parliages) is related heresthough it fell out before, because it was fit to mention things fo coherent together; all the flory befides hapned after the teiling of Joseph into Egypt, and so the whole is most fitly fee down, as one continued story in this place. The marriage of #udab, Er and Pharez, at fourteen yeares old; but especially #udab his plato, ar and enarce, at contracts yeares one, our especially space in the segreting of Er, and Pharee his begetting of Heeron and Hamel about that age, may feem somewhat strange; and so are many things in Serjeture, yea, in the narration of this Chapter, yet it is not improbable, because, in very many of thet age, there is a natural ability for that purpose, and there wants not initances of some, who were fathers some purpole, and there wants not intrances of tome, who were tautes four-ner then at fourteen, as Abaç was when he begat Hezekish, which is plain by comparison of 2 King, 16.2, and 2 King, 18.2, and 17.1 And Docter Rivet in his exercitation on this place out of Scaliger, relates a story of one who was under twelve years of age when he begat a child.

And no doubt but there are divers instances of such early fruitfulness, as

Though then affliction be not pleasant as a Banquetsit is profitable as a medicine for the recovery of the foul from the fickness of fin; though it have been of long continuance; for the guilt of their fin was about twenty yeers old though the fmart and anguish of it was not felt until now; but affliction awakened their contciences which before were afleep; and their bonds and imprisonment were a means of freedom to their fouls from the bond of wickednesse, according to the words of Elihu, If they be bound in fet-

V. 24. Joseph was wife, yet could he not to keep on his diffimulation, but his kindness overcame his craft; hence it is, that hypocrific will not long be hid, and that a lying tongue is but for a moment; whereas the lip of truth 4 established for ever, Prov. 12,19.

See on ver. 27,28. and now they open them at home, it is faid they were afraid; it is like the first tear was judden and fhort, at least that it did not last until they came home, yet with a fecond fight of the money, their passions might return upon them, edpecially their father being taken with it, and giving reasons for it, might cassly receive the passionate apprehension of his sons, and so they were now (father and sons) alraid together: Ot, the sons would not acknowledg they had opened their facks before, and found the money in them, left their father should have children them, and so they feign a fear with him, as if now they had first taken movice of the matter.

Howfoever, if we fee no evident caufe of our afflifilon, let us look to the fecret counsel of God, who punisheth us justly for our fins.

we are my Lords fervants] Judah first gave up their liberty lost, who was the first mover for the felling of his brother Joseph for a lervant, Gen.37.26,27. The Law concerning thefe was in Moles time, that re-flitution should be made in some cases double, in some four-fold, and he that could not make such a recompence was to be fold, and become his flave, to whom he was a thief, Exod. 22.1,3. but in this case their own words exposed them to a greater peril, even to the loss of their lives, ver. 9. and though therein they spake not wifely, here they answer ho-nestly, and professe themselves (at least Judah for himself and the rest, and none of them spake a word to the contrary) ready to make good what they had said, though they dye for it; which may be juftly ap-plyed to the reproof of those, who will stand to nothing they say, if it make against themselves ; but for their advantage, or to avoid damage, make no icruple to break their words, and fometimes also their folemne

V.18. In my Lords ears] Judah coming neer, and desirous to speak in Josephs car, seemeth to be repugnant to that, Chap. 42.23 where it is fail, that Joseph spake unto his brethren by an Interpreter, or (as in the marginal variation according to the Hebrew) an Interpreter was between them 3 because the Hebrews understood not the Egyptian Tongue, nor would Joseph, bearing himselfe as an Egyptian, Augue, nor wome Joseph, nearing minione as an Egyptian, feat to understand the H-brew Tongue; why then did Judah draw neer, and defire to speak in his car, as by way of secret whispering? Anfw. First, for his drawing neer, it was convenient for him that spake, to advance a little before the rest of his brethren towards him, who was to be spoken to. Secondly, for that he faith of speaking in the eare, is doth not necessarily imply any whispering speech to be heard by one alone, as may appear by the like phrase, Gen. 50.41. Exod. 11.2. Deut, 5-1. and in divers other places. Thirdly, If Judah did come necr, and defire to speak to Joseph privately without an Interpreter, it were not repugnant to that, Chap. 42.23, for in Egypt Joseph was generally known

Or a child new yet weaned, Gen.21.8. yet it is applyed to Joseph when he was feveracen yeers of ages, Gen.37.30. And this extensating term is given either out of compassion, importing tendernesse, such a tendernesse as one would use to a little child, as in that place concerning Joseph; or it is taken by way of excule, as an officious lye, as in this place, to keep Benjamin at home with his father, as if he were fo little and fo tender, that he were untit and unable to take, or to be brought fo long &

V.26. We cannot go down In Chap. 43 ver. 5. Judahs words are, we will not go down, but here rehearing of them to Joseph, he taith, We cannot go down; this repeating is a kind of repenting or corcannot, may agree with filial duty; the former was faid to Jacob on a fudden, the latter upon better advice, as under the awe of a superiour power,of which he was to expect rather justice then favour. So we see second confiderations are wifer then the first, and that fear will amend the faults which familiarity commits.

V.27. My wife bare me] He faith not my wife Rachel, by way of diffinction from Leab, but calleth her his wife by way of eminence, as being first in his choice, and dearest in his love, in comparison of whom the other was no wife, and had been none if there had not been more fraud in her father, then there was love in him towards her, See Chap. 46.19.

V.30. Bound up in the lads life I If he came not back, he would think iome deadly mitchier had befallen him, as he did of 30fpb; and fuch wasthe tendernels of Jacobs heart, that if Benjamin should dye he could not live : this strength of affection was the weaknesse of that good man. And commonly the parents are more kind to their children, then their children to them ; and fo there is not oftner an errour of excelled on the one fide, then of defect on the other. But in this pathetick supplication and pleading, Judah shewith more love to his tather and brother, then to himself a offering himself a prisoner, that the manner of the prisoner, that the manner of the prisoner is the common might go free, and so his father may have none occasion of such grief, as may haften his death. A good example for fons, that they thew themselves careful of their parents content, and that they do not (as many do) either by their wickedness, disobedience, or dissoluteness, grieve their hearts, and bring their heads before, or when they be gray, with forrow to their graves.

Changes of raiment | That is, (as some conceive) a course garment for private use within the house, and a more precious suit to wear abroad : Or, change of garments, is fuch precious garments, as will move a man to change those he had before to put the old off, and put on shele, 2 King, 5 22. Hence it was, that change of garments were not only given in teltimony of honour, or favour,but as wagers upon contestation,or trial of any matter in doubt,

V. 20. Foseph bought all] How excellent are those creatures in their want, which when they abound are effected as base, and wasted in abule? now the famine is grievous, corn is precious, and worthy to be bought with money, goods, lands, liberties, and all; for without it men cannot live, and what service can all these things do a man when he is dead? God doth both wifely, and juftly, when by such restraint he makes men know the worth of what they had, by the want thereof.

V. 21. from one end of the borders Having gotten their lands for corn, he made them change their habitations, that they might not plead an ancient polleflion, and might with more chearfulneffe pay their rent, which they would more willingly do in those places, where they were but new commers, then in those whereof they had been ancient owners. It may feem strange, that so many being pinched with famine, would have the patience to part first with their money, then with their cattel laftly with their lands, and liberties; and that they did not mutinoufly meet, and violently break upon the Barnes, or ftorchouses where the corn was kept; this was the effect of Josephs prudence, but especially of Gods power, and providence, which stilleth the noise of the lea, and the tumult of the people, Pfal.65.7. Queft. But did not Joseph deal injuri-oufly, or uncharitably with them, by such advantages of their necessities to ingrois all their goods, and to inthrall all their persons? To that it may be answered; First, that Joseph was the means under God, to fave their lives, (as themselves acknowledged, vers.25.) from an horrible death, and therefore by him they received more good, then hurt, Secondly, the corn he fold was the Kings, at least the most part of it, and Joseph was, in fidelitie to him, to take a valuable recompence for it. Thirdly, he did this with favour, for though they fold themselves for corn, he reftered their libertie. Fourthly, whereas he might have taken halfe or four parts, and left them but the other half, or one or five, he allowed them four parts, and conditioned but for a fifth unto the King, verf. 24. which was no more then was laid up in the yeares of plenty,

V.7. as for me] The presence of Foseph put Hacob into a stronger apprehension of his most beloved mother Rachel, which assected him much, and moved him to say, as for me, making mention of her death, that lay close to his heart, and was remembred and loved as himself.

Rachel dyed by me] He maketh mention of her, not onely because his mind was fo much fet upon her that he could not forget her, (though dead long before) but partly to intimate a resion in her name, why h bequeathed the birthright to Josephs children, which might be because Rachel in right was his first wife, and (had his father in law done him right) Joseph had been his first-born; and partly to give a reason why loving her to well, he did not bury her there where his ancestors were buried, and where he meant to be laid himfelf; the reason hereof was the urgent necessity of her burial neer Bethlehem, who dying in child-bed by the way, could not well be kept unburied untill the could be brought (especially by the flow pace of the flocks) unto the Sepulchre of the Pa-

The word used by Jacob hath an elegant allusion to the name of Judah coming of fadab, to praise, or to confesse; and while his brethren praise him, they shal confess his prelation above them. It is observable, that Judah having formerly offended with Thamar, his fault is palled here over in filence, while the fin of Simeon and Levi is remembred with reproach and imprecation; whereof the reason may be that as the crime of these offending brethren was more hainous, so their dispositions were mo e harsh and hard heerted; for Judah confesseth his fault with terms of aggravaand hard herered 3, for Judan contelleth his fault with terms of aggrava-tion, Chap, 24.36. and they flubbornly flood to what they had don-gwhen their good father with much grief and anguish of heart-rebaked them for its a fearing the middlet drast might come of it-seen to the ruine of him-felf and all his family. Sixthly, because a rod or ftaff is used to firike withal, and ftrokes are not indured without paine; the word Shebet is taken sometimes for a blow, a wound, or for affliction, because when a blow is received, the body and mind both are afflicted : So faith lob, Let bim take away bis red from me; the word is Sheber, lob 9.24. In this prediction of Jacob, it there were nothing eller in it memorable, we have this to objecte (as of that he foretelleth of some other Tribes touching their portion in the land of Canaan) that it is evident Jacob here spakes by the inflinet of the Spirit; for this (which the whole world knows was fulfilled of Zebulun) fell not out in effect till about two hundred years after Jacobs decease; and then that portion was allotted to him, not by choice, but by lot, for the Land of Canaan was divided by lot among the Tribes, Palan. 26.55,56. For firft, the neighbourhood of the fea maketh rich, and riches make men proud, and pride maketh men many wayes very wicked. Secondly, where there is comerce by ica, there is a confluence of feveral Nations, who fend not out the best, but the boldest for sea-adventures, and they most commonly corrupt one another with the vices of each Country. Thirdly, hat ving opportunity for piracy, and robbery, and a kind of exemption from ordinary justice, (which is resident upon the Land, not upon the Sea) lea-facing-men are often times not only less religious, but more unjust,

It is to with many of the people in France (as is observed by such as have seen the monner of that Country) whose earthly mindes are so taken with the fruitfulneffe of the foyl, that if they may have a part in it with peace, they submit themselves to a most servile condition, whereby they undergoe most heavy burdens of tribute, and other oppressions, rather like flaves, then fubjects, yet like a generation of Iffachars, or dull Affes, bear all; which is a just ground for the proverbial speech of the French King, and his vallals, viz. 2. For Situation, the field of Abraham was before, or over against Mamre, or Hebron, in the Tribe of Judah; that of Jacob was near the City Sichem, or (us it was corruptly called in our Saviours time) Sichar, Ioh.4.5. a City of Samaria, in the Tribe of Ephraim, diftant from Hebron about 22 miles, accounting for a mile, as much in length as takes up an hour in ordinary travel.

3. For Price; that of Abraham cost four hundred shekels of filver, Gen. 23.16 that of Iacob coft but an hundred pieces of filver, loth 24.31 Heb. an bundred lambs, or an hundred filverlings , flamped or marked with the representation of a lamb.

4. For Use; the field of Abraham was bought for a burying place at first, and there Abraham and Sarah his wife, Isaac and Rebekah his wife were buried, there (faith Jacob) I buried Leah, Gen. 49. 31. and there Iacob beipak his own burial place, verfe 29, 30 Chap. 50 verfe 55 and there was he buried, Gen. 50.13 but the field of Jacob was bought for another purpole, and was first ufed, not for a burial place for man, but for an Altar for God, Gen. 33.20. although afterwards the bones of loseph were buried there, and it is probale alfo, the remainders of the other Patriarches.

Fifthly, and lattly, they differed in Persons, both byers and sellers; for Abraham bought his field of Ephron the Hittite, Gen. 23, 17. lacob bought his field of the fons of Hamor, Iofh 24.32 Acts 7. 16.

Secondly, It is manifest that these two purchases, being so distinct in themselves, seem to be confounded in the speech of Stephen.

Thirdly, It is evident, that though that were granted; and therewithal that Stephen erred, that yet it cannot impeach the truth and authority of Saint Lukes relation y for a true Historian may write that which is not true, in the name of another; and there may be an Historical truth, where a moral truth is wanting; as where Males writeth that lacob faith, I am E fau thy first born, Gen. 27. 19,24 and Ezra, Icremish, or Hezekiah; or whoever was the Pen-man of the first book of Kings, wrote an Historical truth, Chap. 13.18, where we read, that the old Prepher faid to the young, that an Angel had spoken to him, to bring him back to take refreshing at his house, though in him that spake it, it was a meral ile. See on chap.46,27.

Fourthly, That is also clear, if Stephen (making, a long speech on the sudden) did mistake, and mistreport somewhat of the story of the Old Testament, that cannot prejudice either the truth of Scripture, or the holinefle of Stephen , or that affiftance which he had from the Holy Ghoft , though it be phrased [he was filled with the Holy Ghoft :] for that doth not import a perpetual, and infallible guidance of the Spirit in all particulars, 28 hath been observed in Annot. on Chap. 46.

Secondly, These propositions premited, the doubts to be discussed are

partly general, partly particular.

First, The general doubt is, how it can be faid, that Jacob, and the Fathers (whom Stephen calleth our fathers) were carried into Sichem, and there buried, Acts 7.16 fince we read only of the burial of Josephs bones in that place, Jolh.24.62.

Secondly, For particulars, the doubts are two; First of Abraham, Jow becoming to particularly the counts are two Fup of Automator, 100 the Fathers can be faid to be laid in the fequichre which Abraham bought of Hamor, when Abraham bought his burying place of Ephron, Gen. 23.16. and Jacob purchased the field of Hamor, Josh. 14:32.

Secondly, Of Hamor, concerning whom there are three scruples. Firft, whether he were the father, or the fon of Sichem.

Secondly, whether the Father of Ephron were called Humor. Thirdly, why Hamor is faid to be the Father of Sechem, rather then of any other of his fons.

Secondly, that in Gen. 50.1 — bit fort entered bin into the land of Canan, and barted him in the cave of the field of Machphelab , which A-vealed to Stephen 3 as the name of James and pattern of James and pattern of James and J be faid, Firft, That the affirming of Joseph, is no denial of the reft, any other of the Old Testament, S. Paul knew and wrote their names, 2 Tim. 3.8. and Jude knew of the Prophecy of Enoch, whereof there by the reft in conformity to his example.

But the greatest doubt is concerning Jacob, who was certainly buried in the sepulchre of Abraham, as the rest were not. Whereto the An-

ing place,
Secondly, Others conceive the words may be distributively taken; for, as there be two forts of persons spoken of, and two places of burial; the one, that is, Jacob, might be buried in Abrahams burial place, the reft at Shechem 3 but the words feem rather to be spoken of one burial

place then of two.

Thirdly, Some hold there is no necessity of either of these an-Thirdy, Some bold there is no needility of either of these an-facets, for though Jacob and the reft be joyned together in a state of mortality, Ad. 7-15, yet he 16 ver. of their butial may be confined to them, as the next Antecedent, in System our father's without taking him into their number; though he, and none but he, of those that dyed in Egypt, were buried in the Sepulchte of Arbeits.

To the second Doubt (how the Fathers can be faid to be laid in the Sepulchre which Abraham bought) divers answers are gi-

First, Some conceive there is some misprisson in the Transcribers of the Scripture, who miltook the name of Abraham for Facob 3 but that is not like to be true, nor fafe to admit; not the firft, because all, or most copies have it fo; ner is it safe to admit not the second, for if the original, wherewith so many copies are concurrent, should be corrupted, it would extenuate the authority of the ho-

ly Text,
Secondly, Others rather think (and it is more like, and leffe dangerous) that Stephen miftook the name of Abraham for Facob. Against which answer, if it be said, that his adversaries, if he had been so miltsken, would have taken him with it, and reproached him for it; the reply may be, that their rage against him was so great, that they cook no notice of his errour in a matter of no great moment; or if they did, it might be omitted in Saint Lukes Narra-

Thirdly, Some conceive they avoid the inconveniencies last men-1011ay, Some conceive they arone the inconveniented an inter-tioned, by faying, that Abraham is not here to be taken in the Nomit-native cate, but in the Gentitive, understanding Jacob the grandchild of Abraham; for the word forn, or grandchild, may as well be underof Adraham 3 for the word 19th, or granacours, may as well be unset. According to the vulgar Latine, and the Geneva, it is the fon of Shechem; others say, the father of Shechem; the original lath neither, but say sybom, that is, of schem, which in respect of Grammar, may be cluber; but the original toey, Josh. 41, 22. (whence the word must be subject) such that the original toey, Josh. 41, 22. (whence the word must be supplyed) saith, the father of Shechem: the like construction we have, Math. 1.6. and 10.2.1. and Luke 22.10. where we read Mars of General. Math. 1.6. and 10.2, 3, and Luke 24.10. where we read Mary of Fames, which is made up by addition of a word, Mary the mother of James, Mark which is made up by addition of a word, Many the mother of James, Mark 15.40. The scenar, Whether the father of Ephron were called Hamor, io some lay, that Zohar phytones father, with whom Abersham bregained for the field of Machpelah, Clap. 23 17, was called Hamor's and so they think the difficulty of this place is belt clared, making the burial place to be that of shribmans, not that of James and the state of the shribmans in the state of the shribmans. The shribmans is the state of the shribmans in that of James and the shribmans in the shribmans. movel of the Doubt ; for though it be true, that it is not ftrange in Scripture for one man to have divers names, yet it doth not appear to be fo in this case, nor that this Hamer had a son calappear to be 10 in this case, nor that this range has a ton called sheebern, as that Hamer, of whom Jacob bought his portion of ground, lad; where we are to answer to the third feruple, which is, Why sheebern only of Hamors sonnes is mentioned, when on thers, and not he, made the fale of the ground which Jacob bought?

Shechem was among Hamors sons of chief note and accompt; for it is faid, be was more honourable then all the houfe of bis fathers Gen. 34.19. and fince he is named, the rest not mentioned, and it is most probable that he had most to do in this businesse, and that the rest consented to his transaction.

The Argument.

THE second Book of Moles, (containing a story of about 146 years (towit, from the death of Joseph, to the single-ing of the Tabernacle) sheweth the multiplication of the posterity of Jacob, from a small number, (even 70 souls, (i.) per son, which came with him into Egypt, Gen. 46.26,27) te six hundred thoussand men (brides children); so they are numbred, Exod. 12.37. and afterward the accompt given of them, in the second year, and afterward the accompt given of them, in the second year, and second month after their departure is six hundred thoussand, and three thoussand sive hundred and sifty, Numb. 1.45,46 wherein none ter their departures in x munarea coujana, and sorres rougiand que ounarea and jist, Nutto. 1.45,40. worrein none under trens jears eld, now emit un enterviseable for the Wart; none of the Tribe of Levi, nowemen were numbered. This people (for their numerous increase) were feared and bated by the Egyptians: whereupon (for their own fectority they endeavoured by murstering the male children, and by manifold syrantics over the rest, to reduce them to a smaller number. But the more they were opperssed, the more they mustiplyed, and God their of the sold in monour over their oppersor, exercised his spice on them, but compassion on his people, and bir poliver on both, in a mirraulous deliverance of the one, and destruction of the other. And having brough his people out of Egypt, he led them who extraordinary considered and those other constants. in the wildernesse, and there both cherished and upheld them with extraordinary supplies and support, and jet chastised them for their manifold offences, (especially murmuring and Idolatry.) Nevertheless, he made a covenant with them at Horeb, where he delivered them Lams, Moral, Judicial and Ceremonial, for their Government, both as a Church, and as a Commonweal.

Pithom and Raamfes] Two Cities fituate in the confines of the kingdome : and for the latter it is to be observed, that there was a part of the Country of Egypt, called the land of Ramefis, which was given to the Jiraclites by Pharaoh, (for their policifion) at their entrance into E-gyr, Gen. 4.7.1. called the best of the land, there they built a City, and called it by the name of the whole Country, because it was the best part of the land of Egypt, Gen. 47.11. Or Mofes might give it the name, which it had when he wrote his Hiftory, though it might be called by another name, when it was built : fome take it for a city called Pelulium different from Ramelis forementioned, Gen. 47.

V.12. The more they afflitted them, the more they multiplied] Heb And as they afficied them, jo they multiplied. Fear and hard ulage was in ordinary operation like to give impediment to procreation of children, but that their fruitfulnels might appear to be by the especial bleffing of God, the more they are molested, the more they are multiplied; as is faid of Camomile, the more it is trodden, the fafter it groweth : but with this difference, that it is natural for that herb to thrive by oppression; but it is not to by the nature of man, but by the favour of God that the godly prevail against perfecution; which may be one great cause why they should wish well, and bear good will unto their enemies, since though they mean them never fo much hurt, their malignity, may become an occasion of very much good unto them; as the grudg of Joiephs bre-thern was converted to his honour, and to the comfort of himself and them, and of many thousands more, Gen. 50.20. And hereby we may observe that of the Wise man made good, against the wicked policy of the world, There is no wisdom, nor counsel, nor understanding against the Lord,

they were grieved because of the children of Ifrael] They meant to grieve the liraclites, and themselves are grieved : to their punishment is furable to their fin (and a great fin it was to grieve not for their own wickedness, but for anothers welfare) and envy becometh both [their crime, and their curfe.

V.15. Shipbrah and Puab] That thefe were Egyptian and not Hebrew midwives, is conceived by their answer, ver. 19. wherein they speak of the Hebrewes, as differing from themselves; but some rather think they were Hebrew midwives; 6 occause it is not like, the Hebrews would admit Egyptians at their labour, and that to have obtru-ded such upon them, would soon have discovered that the male children were made away by the Kings command: yet that feemes more probable, then that the Hebrew women should either for fear or hire be drawn to destroy all the males that were born of their own people: and though these midwives be said to fear God, ver.17. that phrase doth not necessarily infer, that they were right in Religion, as we see Jonah 1.16. But the greatest doubt is, Why these are mentioned, and none elie; why two, and no more? Some conceive, these midwives were such as were of note and use in noble families, and so might do cruel execution upon the chief of all the Hebrew children : but the Egyptians made no such difference of the Hebrewes, how noble so-ever some were by birth, they were all made base by slavish servitude, yet these midwives might be Mistresses of that Arr, and so by them others might receive that charge, which they received from the King, and they might receive it from him, being much imployed by the women

V. 19. Hebrew women — are lively] The Hebrew word Haisth
which fignifieth the quick, or quickning, may note (as the vulgar Latine rendreth it) a skill, quickness, or dexterity in doing the office of a midwife, which is many times prevented by the expedition of the birth a and it may be (as some Rabbines conceive) they might expresse the promptnelle of the Hebrew mothers, in this manner, by a comparison of contempt (that they might be the lefte suspected by Pharaoh , of pity or concerning (time tany migrat be the time time time time and to be taken to be like unto be taken to be like unto be taken to be like unto bealts, who (white time to be individue affiliations, they are fo quite and lively in their deliverance. But it is most like that the Hebrewes (acquainted with the cruel command of the King), might rather the set (acquainted with other problems). for affiltance to travelling women, then commit themselves to the hands of professed midwives of the Egyptian Nation, and (if obedient to the Kings command) professed murderers: yet it might be true of many of them, that they were delivered before the midwives came unto them . for those that are laborious (when they are with child) have quicker labour, when their burden cometh to the birth, then others have. Howfoever this answer of the midwives is diverfly censured; for some from their fear of God, mentioned, v.17. and the recompence of their pity, v.21. infer, that they made a free and bold profession of their faith, a vowing to the face of Pharaoh with adventure of their lives, that the ower and fayour or God was with them ; and therefore notwithflanding the Kings command, they would do nothing against them: and yet it is generally conceived, that herein (10 save the little Jewes alive) they old the King an officious lie,as Rahab did, Joth, 2,5,6, and David, a Sam 1.2. and Elisha, 2 Kings 6.19.

V.21, Made them houlet] In this or the like expression, God often professions to those he loveth 3 as 1 Sam. 2.35, 2 Sam. 7.11, 1 Kin. 2.14, and Chap. 11.38. Which phrase importeth not so much the place of habitation or abode, as the blefting of families with increase and pro-ferring, as by a numerous, long lived and proferrous off-fpring; a not the off-fpring; in the off-fpring of the off-fpring between the off-fpring of the proferrous off-fpring; and House, because the word Ben, a fon, is derived of the word Bana, which lignifieth to build, for of children are families made up, as houses of the ngament to outsine for our clinates are familites made up, as houles of the materialsyshretes they are composed. Hence form infer, the officious lye of the Midwires was shawful i but their 20. being a mixe sky, confiling of piety to Godphy to this peoples and fallacy in Jung to the King i the two little were gracefully accepted, and rewarded by God, the third was metterfully palled by and parlomed by him.

V. 12 And Pharash charged all his people] The Midwives being as kind to the male children as Pharaoh to the females, yer. 16. and 22. he giveth the charge more generally, and, that no doubt, with commination of crueltie on those who could not find in their hearts to be so cruel, as he would have them; which took such effect, at least for a time, that the parents of Mofes could not long conceal him, Chap. 2.3. yet this vio-lence did not continue all the time of the Ifraelites continuance in Egypt, because there were many young Hebrewes under twenty years old when they went out of Egypt; and it is like this bloody decree died with the death of the Tyrant that made it, and that he died the sooner, because he was to cruel, according to the prophecy of the Psalmit, Psalm

cast into the River] That is the meaning of his command, whereby it might be known whether the Midwives obeyed it or no; where is ob-fervable the practice of Tyrants, which is to make up their bloody plots, fometimes with fox-like fubrilty, and fometimes with lion-like cruelty 3 fo, according to the proverbathe Lions skin pieceth up the Foxes, as well as the Foxes doth the Lions, as they fee occasion to make use of either.

and every daughter] When the charge was given to the Midwives to murder the males, it was with caution and exception, to fave the females alive, y. 16. and now it is enlarged to all the people to be flaughtermen to the fons of the Hebrews, the Tyrant ftill continueth his refervation of the daughters, that they might be spared and kept alive 3 but this was not out of pitie towards them, but because he had no such fear of them, as of the other fexe : and it is like, the daughters of God were more pleafing to thefe fons of men, then the daughters of men were to the fons of God, Gen. 6.2. then their own native Country women, and so they would keep them either for their luft, or to raife a fairer and more beautiful breed then their own. For some such reason was it, that Abraham feared the beauty of his wife, would be a fnare to his life among the Egyptians, and that, according to his fear, it came to passe, that the Princes of Pharaoh commended her, and thereupon the was taken into his houle, Gen-

By Hiftorical Narration, diftinguishing the times, thus : While the Tabernacie stood, they were placed all in the Ark; but afterward, when the Temple was built, onely the Tables of the Law were placed in the Ark, (and therefore it, was to punctually noted as a new thing in those two forecited Teftimonies) and the Rod and Pot of Manna were kept in fome other part of the Temple; and they might be fafer in the Temple without the Ark, then without it in the Tabernacle; yet some are of opinion, that they were not in the Aik, neither during the time of the Tabernacle, nor in the dayes of Solomon, but afterwards in the time of geremy , when by reason of the Chaldeans, Fer. 49. the Fews, fearing the loss of such pretious things, put them all together in the Ask, and that Ark into an hole or cave of the earth to be hid; and afterwards when the Temple was repaired, the Ark was digged up, and placed in it again, and those three things in it before mentioned : And as Adricom Delphus reports, when Gerusulem was taken by Titus, he had that, the Ark, and Pos, and Rod, and the Golden Table, or Shew-bread, and the Golden Candleftick, and other Utenfils of the Temple, as a part of the spoyls of that glorious Fabricks Andrichom. in Deferip. and some field that Paul might have the relation from Gamaliel, or by a gewift Tradition, or by revelation from God, as he had the names of the chief enchanters of the Egyptians, Jannes, and Jambres, 2 Tim. 3.8.

This Hiftorical refolution reconciles the Epiftle to the Hebrews, to those other places, without varying a letter from the Text, or from the fenfe, which at the first blench the words import. The other refolution is Grammatical, and that is twofold: I That, whereas it is faid wherein, or in which, the original may be rendred with which; for in that sense we find the proportion & often ufed ; As there was a man with annnelean foirie, in the Greek it is, de wedudt draddore, in anunclean foirie, Mat. 1.3. Many of theie stones are mentioned, Rev. 21.19, 20. and of them many make myftical fignifications, which wanting ground of Scripture, the building upon them may prove no better then presumptuous fallacies. For though many things of the Ceremonial Law ferved to fliadow out heavenly things, Heb.8.5. yet it is not fafe to prefume (especially in the explana-tion of mysteris) above that which is written 3 nor be two punctual in foruing up fenfible things to spiritual conformities; as some, both ancient and latter Authors have been, especially of the Popish party; nor too bold in bringing down Religious matters, to natural allusions, as Jofephus doth, Antig.lib. z.c.8.

the plural number, lights, and perfeitions; to note the plural number, lights, and perfeitions; to note the plural number, lights, and perfeitions; to note the plural set the excellency of divine grates. This was meant, as fome conceive, of the chelmod and perfection of the pretious flones, of the breft-plate; which were of most clear and perfect beauty; but that is not all for befides. that, these words were ingraven, or written upon some of the precious materials of the High-Priests ornaments, the Urim and Thummim was neither made, nor placed by the inspired Artificers, but (as some learned Writers rather think, by the comparison of Exod. 29 10. Levit. 8,8.) made by God himfelt, and put by Mofes into the breft-plate. Hence it was 'called the Brest-place of Judgment, v. 15, and the Judgment given thereby the judgment of Urim, Num. 27, 21. because the High-Priest put it on when he consulted with God, and received from him clear and determi nate answers in cases of doubt. These answers were sometimes made by audible voice, sometimes by secret inspiration, which when the Priest had told it to the people, the stones and letters in the Brest-plate, as is probat ly conceived, (for there is nothing certain of it in the Scrip:ure) might have an extraordinary brightnesse appearing on them, for assurance that the Prieff had spoken with the Lord, and received resolution from hims as by the shining of Moses his face, when he came from God, with the Tables of the Testimony in his hand, Exod. 34.29, 30. it was manifest that he had from God, what he brought unto the people; and whereas David, defiring to confult with the Lord, called for the Ephod . 1 Sam. 23.9. the reason was, for that the Breft-plate was fastned to the Ephod, v. 28, and the Ephod to the Breft-plate: so that if he had one, he had both, Exod. 39.21. This Oraculous consultation with the brestplate, that is, by the use of the Brest-plate, continued among the Jews, until about, or somewhat above on hundred years before Christ, as some affirm; but it is generally, and more probably thought, that it lafted no. longer, then to the Captivity of Babylon : (for which fee Ezra. 2. 63) and after that time we find not that the Jews had any use of that kind of revelation * Lev. 8. 8. The Table were of flone, betchering the hardness of mans heart, whether from the Original, they were to be transcribed, to make impression in such hard matter, as would require a pen of iron, Job 19.24. and withal to note the durablenesse of that Law, which was therein engraven. And it is like also the first Tables were Gods owne work both for matter and form ; for the stony Tables were of his making work both for matter and form 3 for the itony Tables were of his making and the words in them of his own engaving, Chap 3.1.6. Deut.a.13 & 9.10. And when Mose's in a pang of zealous indignation against the peoples idolatry had thrown them down and broken them, Chap 3.1.19. he was commanded after that to make up the breach, by hewing two Tables of hone like unto the first 3 yet the Lord himself was the Scribe, and made the writing 8s at the first, and graved on the Tables the same that the same of the same words, Exod.34.1. And in the next verie, the words are, And he was there with the LORD (forty days and forty night, he did neither cas breed, nor drink water) and he wivete upon the Tables the words of the Couenant, the ten Commandments. Answ. First, it is Plain (by sundry fore-cited places) that the Lord (and not Moses wrote on the Tables, both those of the ces) was the Lord (and not motes wrote on the Lanta, bountaines or the first and factorial making. Secondly, for this place (it being formewhat oblicute) it is to be expounded by fuch as are clear, even thost forecited, and fo taking that clause of Motes his failing by way of granthes, the word, He, may be referred to the Lord, not to Motes. Thirdly, for Moles his writing it is not to be limited to the ten Commandments, on the Tables of itone; but to be extended to the whole Law, whereof he and people, Deut. 4.14. For those Tables of stone were laid up in the Ark by Gods especial appointment, Deut. 10.1. and the ark was in the Holy of Holies, where neither the inferiour Priefts, nor the people might come : therefore it was necessary there should be written Copies for more general instruction ; and that it was so, is plain by the seventeenth more general intruction 3 and that it was 10,15 point by the teventeenth of Deuteronomy, where the King is commanded to write him a Copy of the Law in a Book out of that which is before the Priefits and Levites, Deut. 17.18. This was a liquid and clear proof, how foolish the people were in ma-king of such a God, as could not defend himself from fire, nor file, nor water, and which by taking it in a draught, might come forth as an excrement, whereby they might have it in more deteffation and contempt. See on Gen.9.3. and the people were itiff-necked, ver. 9. yet the Lord doubtless calt a terror upon them, and so over-awed them by Mofes, who had over-awed Aaron before, that they durft not relift, nor refuse what Moses offered : as when the Levites set upon the rest of the people, and made a great flaughter among them, ver. 27, 28. crimes with death : yet as in other extraordinary cales (Gen.40.7 . Deut: 33.9.) God turned the curse into a bleffing. And though Moses prevailed for a reprieve of the people in general, yet some who were the forwardest in that wicked work, (for prevention of like impicty in future time) were to be made examples of terror and caution to the reft. In this execution of the Levites, fetting themselves in such an hostile oppo-sition to all the offendors of every Tribe, (they being so many in number) there was an evidence of Gods over-awing power, and of the timerous guilt of fin, that they did not take up Armes against them for their own defence. thine aunt When thine uncle is dead; by the fame reason that a man is forbidden the bed of his fathers brothers or uncles wife, or sunt, a woman is forbidden the like neerneffe to her aunts husband ; for as in Logick, @ in divinity the difference of fex varieth not the case so much as to make it unlawful in the one land, lawfulin the other : somewhat it doth, for where uniawini in the one ising jawrinin the octor. For community which the Aunt is married by the Coulent or neptiew, there a fuperior relation is brought under an infector; but where the uncle marrieth his neces, is prought under an interior, but where the unite martini in neces, there a tiperfor is made head of an interior, which is more decent; but that which here is most respected, is not so much the relation of a superor and inferior, (for a miftris might marry a servant of the same religion and tribe, as well as a mafter might marry a maid-fervant) but the gion and tripe, as were as a mante important and the retain four de neernesse of blood, which is the same betwirk Aunt and nephew, as betwirk Uncle and Necce so much the Hebrew phrase imports, vers. 6. fee the text and margin, and therefore it is as unlawful for the father to marry his own daughter, as for the mother to marry her own fon 1 yer of the marriage of the Uncle and Neece there are divers examples, as of Nachor with his neece Milcah, Abraham with Sarah his neece, (asla moit probable) and Amram, the father of Moles, married his Aunt;
Exod. 6. 20, but this was before this law was made 3 and for the Jeus, who at this day observe it not, it may be thought to be a part of their spostasie from true religion. By this prohibition of marriage with the Aunt, some conceive the marriage with Cousen Germans is sorbiden, because there is consanguinitie betwire them , but onely affinity betwire aworthipper of a firance god, or of the true God in a frange manner to the award the husbands brothers for no true that which God preferabed: He that was a kranger in bloud might be no in that which God preferabed: He that was a kranger in bloud might be no in the which God preferabed: He that was a kranger in bloud might be no in the which God preferabed: He that was a kranger in bloud might be no in the which God preferabed: He that was a kranger in bloud might be no in the which God preferabed: He that was a kranger in bloud might be no in the which God preferabed: He that was a kranger in bloud might be no in the which God preferabed: He that was a kranger in bloud might be no in the which God preferabed in the way in the whole of the whole of the whole of the way in and to keep aloof from what is unlawful ; especially the choice of lawful marriages being large enough; without the hazard of fo great a final Inceft. It it be faid, that this is a Levitical Law, which doth not oblige us under our Christian condition ; it may be answered, that the Jews had allowance for neerer matches then other people, especially Christians, for among them a man might, or rather must marry his dead brothes wife, to raife up feed unto him, Deut, 25. 5, which in Christianity is condemned. Matth. 14.3, 4. as well as marrying the fathers wife, i Cor. 5. 1. a Sabbath | Or an holy day, or foloma feast unto the Lord Num

Trumpers This was on the first day of the month Tigri, that is, o September, the first month for civil account. See Annot, on Chap, 25 2. And yet this feventh month, as if it had been the Sabbath of months, as the leventh day is the weekly Sabbath, was eminent for the multitude of Solemnities above any other , for in that month was the Feast of Trumpets, of Tabernacles, and the solemn Atonement or Expiation observed. This Feast of Trumpers was kept at least the first day of it, (as it is received by tradition among the Jewes) in remembrance of Isaacs deliverance from flaughter, when his father was ready to offer him up in facrifice, Gen. 22.11.12, and it is called a memorial of blowing of Trumpets, because it was in the beginning of that month, which had many Feasts in it, to which the people were to be called together by blowing of Trumpets; and for that the Trumpets were to found at the oblation of the facrifice on dayes of rejoycing and other folemn times, especially in the New Moon, Num.10.10. Pialm 81.3. and this joyful noyfe was made, with a special memorial of the year of Jubilee, which was begun in this month; and when it begun, the folemnitie of it is supposed to be such, that the Trumpers were sounded not at Jerufalem only where the facrifices were offered, but throughout all the Cities of Iirael. Some think it was called the Feast of Trumpers, with reference to the Ram by which Isac was ransomed from death; because some Trumpets were made of Rams hornes, Josh. 6.20. Othersfay, this Feast bears the memorial of the miraculous victory over Jericho, at the Israelites first entrance into the Land of Canaan, when the wals of it fell down at the found of Rams hornes, Jolh.in the place forementioned.

But the houfes] There is no general rule but hath some exception; and here is one (of great moment) from the ordinary redemption at the year of Jubile; houses in unwalled Villages that had no walls, were to be redeemed in that year, but not houses in walled Cities, for they must be redeemed within a full year, or not at al : and this was either in favour to cities the better to furnith them with inhabitants, and to keep the houses in good repair ; or for caution to the owners, that by ill husbandry they might not be put to part with them; or elle, because neither houses in cities, no nor cities themselves were so distinctly sorted to tribes, as houses in the country, and the Lands annexed to them were, for the Levites had cities in fundry tribes, and yet had no divided portion of land allotted to them, as the other tribes had. What is herefaid of houses, may be applied to some parcels of ground in walled Towns; 35 Mount Morish which David bought for the building of the Temple in J.rufalem, 2 Sam, 24, 12, 24, the like is held of fuch grounds as yeeld no profit, as gardens of pleasure, and the potters field for burial. And for the Contents of the Book, it is partly Hillorical, partly Doltrinal: For the Hillorical part, befielt the Record of thele Numbrings, we have the story of the peoples travels, their troubles, their murmarings and rebellions, their punishments, their straights and enlargements, dangers and deliverances, combats and Conquests, and the most notable things they did or suffered by the space of thirtie nine years, wherein they rather wandred, then regularly journied in the Defart their fins casting them back from the borders of Canaan when they were near the pollession of it. In this Story the order of time se not noted, Save what belongeth to the second year of the peoples journying from Egypt towards the Land of Promile, and endeth at the eleventh month of the fortieth year, for with that beginneth the ftory of the Book of Deuteronomy, as it and canada and control of Numb. 1.1. With Deut. 1.3. For the flory of the time betwite these termes, there is little or no mention of any Chronological note, though there be many remarkable Occurrences delivered, as Chap. 16, 17, 18, 19. The Dollrinal part containeth additions and explanations of fundry Lawes, some Moral, some fudicial, but most of all Ceremonial, given by God for the Santtification and preparation of the people for the Land of Canaan, especially for their observation when they were possessed it. Some observe many parallel references of the New Testament to this Book, which are not unworthy of a serious consideration; as,
